

TCGA-BLCA Clustering and Survival, UMAP Embedding of:
GOTZMANN_EPITHELIAL_TO_MESENCHYMAL_TRANSITION_UP
GO_POSITIVE_REGULATION_OF_ACUTE_INFLAMMATORY_RESPONSE_TO_ANTIGENIC_STIMULUS

A. DBSCAN Clustering

B. Survival Curves

A. DBSCAN clustering of BLCA using gene ontology terms indicative of EMT and INFLAMMATION signatures (min group size = 30).

B. Survival plots corresponding to the clustering on EMT and INFLAMMATION ($p = 0.00823$).
